SUBJECT INDEX
VOL. 21 / 1985

All-MDI flexible foam automotive seating, *p. 269*
Amine catalysis, *p. 318*
Amine catalysts, *p. 114*
Amine crosslinkers, *p. 345*
Antifoam, *p. 208*
Antimicrobial, *p. 332*
Antistatic, *p. 31*
Appliance foam, *pp. 35, 250*
Appliance insulation, *p. 277*
Appliances, polyurethane foam, *p. 183*
Aromatic, *p. 105*

Bacteria, *p. 332*
Bun foam, continuous, *p. 350*
Butler chimney, *p. 105*

Closed cell, *p. 178*
Cold cure foam, *p. 264*
Combustion modifier, *p. 93*
Comparison, hot vs. cold cure, *p. 264*
Compression, humid aged, *p. 417*
Correlation study, *p. 198*
Cushion curves, *p. 178*
Cushioning, *p. 43*

Demold characteristics, *p. 183*
Diphenylmethane-diisocyanate, *p. 269*
Dow Corning ® 5701, *p. 332*
Dual hardness seating, *p. 269*
Dynamic fatigue, *p. 306*
Dynamic loading, foams, *P. 123*

ESD control, *p. 26*
Ethylene oxide, *p. 105*

Filled foam, *p. 311*
Fire resistance, *p. 105*
Flame retardant, *p. 93*
Flame retarded flexible foams, *p. 311*
Flammability performance, *p. 311*
Flammability screening tests, *p. 311*
Flexible slabstock polyurethane, *p. 198*
Fluorocarbon compatibility, *p. 105*
Foam pressure monitoring, *p. 183*
Foam rheometer, *p. 424*
Foams, *p. 178*
Formulation, *p. 187*
Freon, *p. 318*

Graft polyols, *p. 101*

Heat aging of foams, *p. 51*
High resilient foam, *p. 311*
Hot cure foam, *p. 264*
HR foam, *p. 192*
HR foam, statistics in, *p. 114*
HR foams, humid aged compression, *p. 417*

Impact loading, *p. 123*
Insulation, pipelines, *p. 51*
Isocyanates, aliphatic, *p. 243*
Isocyanurate foams, *pp. 105, 338, 350*
Isocyanurate foams, urethane modified, *p. 58*

K-factor, polyurethane foam, *p. 26*

Laboratory testing, *p. 198*
Low density foams, *p. 43, 178, 350*

Macromer, *p. 101*
Mat molding, *p. 409*
Maxfoam equipment, *p. 198*
MDI, effect of index, *p. 51*
Melamine, *p. 311*
Microorganism, *p. 332*
Microscopy, *p. 191*
Microspheres, hollow, in polyurethane foam, *p. 406*
Mixing, *p. 208*
Modeling, *p. 178*
Molded metal inserts, *p. 377*
Molded polyurethane flexible foam, *p. 269*
Morphology, *p. 171*
Multimodular foam, *p. 192*

Organoarsenical, *p. 332*

Packaging, Polyurethane foam, *p. 430*
Para-tetramethyl xylene diisocyanate, *p. 243*
Phospholene oxide catalyst, *p. 350*
Phosphorus diol, *p. 93*
Physical properties of foam, *p. 306*
Poly(carbodiimide) foams, *p. 350*
Polyester, *p. 105*
Polyester polyols, *pp. 58, 318*
Polyethylene, *p. 178*
Polyethylene terephthlate, *p. 105*
Polyisocyanurate foams, *p. 187*
Polymer dispersions, *p. 101*
Polymer structure, effect on K-factor, *p. 26*
Polymeric isocyanates, *p. 350*
Polymeric MDI foams, *p. 277*
Polyols, *p. 105*
Polystyrene foam, p. 31
Polyurethane foam, *pp. 31, 51, 101, 120, 239, 306*
Polyurethane foam, filled, microspheres, *p. 406*
Polyurethane foam, packaging, *p. 430*
Polyurethane structural foams, *p. 377*
Polyurethanes, reaction injection molding, *p. 243*
Process control, *p. 120*
Propylene oxide, *p. 105*
Puncture impact, *p. 43*
PVC foam, *pp. 31, 399*

Quaternary, *p. 332*

Reaction injection molding, *p. 243*
Reaction moderator, *p. 101*
Reaction stability of urethane systems, *p. 318*
Reactive, *p. 332*
Reactivity, *p. 208*
Refrigerator–freezer insulation, *p. 277*
Rest easy foam, *p. 311*
Rigid foam, heat resistance, *p. 51*
Rigid foam system stability, *p. 318*
Rigid foams, *pp. 239,.350*
Rigid polyurethane foam, *pp. 51, 93*
Rigid urethane, *pp. 105, 277*
RIM, *p. 120*
RIM composites, *p. 409*
RIM, growth trends, *p. 261*
RIM systems, extending, *p. 326*

Screening test, *p. 198*
Silones, *p. 332*
Silicone surfactants, *pp. 198, 239*
Slab stock foam, *p. 311*
Space tanks, insulation, *p. 399*
Statistics in HR foam, *p. 114*
Stress–strain, *p. 43*

TDI based foams, *p. 277*
Thermal insulation, *p. 239*
Titanate coupling agents, *p. 385*
Troubleshooting, *p. 198*

Urea formaldehyde foam, *p. 171*
Urethane systems, *p. 208*

Viscometer, *p. 208*
Viscosity, *p. 208*

Water tolerance, *p. 171*
Weatherability, *p. 243*

AUTHOR INDEX
VOL. 21 / 1985

Alberino, L. M., *p. 409*

Bailey, B., III, *p. 58*
Balakrishnan, T., *p. 399*
Battice, *D. R., p. 332*
Biggerstaff, D. B., *p. 35*
Booth, L. D., *pp. 26, 277*
Braun, D., *p. 171*
Brooks, M. F., *p. 269*
Bye, M. L., *p. 345*

Canaday, J. S., *p. 338*
Carleton, P. S., *p. 409*
Carver, T. G., *p. 243*
Chang, E. Y., *p. 243*
Christen, J. D., p. 277
Clarke, W. D., *pp. 183, 257, 277*
Conan, J., *p. 187*
Cornell, M. C., *p. 243*
Cunnion, J. P., *p. 406*

De Guiseppi, D. T., *p. 318*
Dell, J., *p. 250*
Draaijer, L. M., *p. 51*

Ermis, G. W., *p. 243*

Faltin, F. W., *p. 114*

Gibilisco, R. D., *p. 93*
Grace, O. M., *pp. 101, 311*
Green, J., *p. 93*
Günther, P., *p. 171*

Hagarman, J. A., p. 406
Haggerty, T. I., *p. 269*
Hales, M. G., *p. 332*
Heyman, D. A., *p. 101*

Jayabalan, M., *p. 399*
Jirka, L., *p. 58*

Katz, J. J., *p. 269*
Knibbe, D. E., *p. 264*
Kollmeier, H. J., *p. 239*
Kostrzewski, W., *p. 424*

Kreter, P. E., *p. 306*
Kumar, S., *p. 123*

Largent, B., *p. 58*
Lee, F. T., *p. 93*
Lee, W. M., *pp. 26, 417*
Lerner, A., *p. 31*
Lewis, G. D., *p. 120*

Markovs, R. A., *p. 326*
McEvoy, J. T., *p. 192*
Mericle, R. E., *p. 311*
Monte, S. J., *p. 385*
Murphy, J. A., *p. 105*

Nicolais, C. A., p. 345
Nichols, J. B., *p. 277*
Nicholson, W. R., *p. 198*

Oswald, L. F., *p. 430*

Poole, A., *p. 261*
Potts, C. G., *p. 51*
Progelhof, R. C., *pp. 43, 123*
